BACKEND: C++, ExpressJS, NodeJS
GAME ENGINE: GODOT 4
PROGRAMMING TOOLS: Visual Studio, Visual Studio Code, Sublime
DATABASE: MongoDB and Xampp (MySQL)
DESIGN AND EDITING TOOLS: Figma, Canva, Inkscape, Krita, Aseprite, Adobe Premiere Pro, Capcut
3D MODELING TOOLS: Blender

PROJECTS

PROJECT ZERO: FRAGMENTED (GAME)

MAY 2025

Sole designer and developer of a 3D first-person game built in Godot Engine, featuring free movement, hand/gun mode switching, and interactive objects. The project includes 3D environments and maps modeled in Blender, alongside 2D character assets created in Aseprite displayed on a persistent on-screen UI for player control. Additionally integrated a voice-over system using human voice recordings edited in Audacity.

CROOKED (GAME)

MARCH 2025

Sole designer and developer of a 2D top-down game built in Godot Engine, featuring free movement across a single map and full NPC interaction and dialogue powered by Dialogue Manager. Crooked Game is a short-story experience where the player must find 5 chickens scattered throughout the map while navigating various obstacles.

NARRALYTICS (WEBSITE)

MAY 2026

Developed Narralytics, a full-stack web application that analyzes OJT learning journals and narrative reports using text mining techniques to identify task patterns and assess their alignment with academic program competencies.

REED ELSEVIER - HUMAN RESOURCES (APP)

NOV 2024

Designed and developed a human resources system with the team using C# and Windows Presentation Foundation (WPF) in Visual Studio, integrated with a MongoDB database to manage and store employee applicant data including personal details such as name, age, address, and other background information.

JNC BIKESHOP (WEBSITE)

MAY 2023

Designed and developed a business website for JnC Bikeshop using HTML, CSS, and JavaScript on Visual Studio Code, showcasing a variety of bike parts and branded bikes for sale, and implemented a user interface for a ticket page where users can input their information and receive pricing based on their selected product.

EDUCATION

CAVITE STATE UNIVERSITY - SILANG

SEPT 2022 - PRESENT

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

CHRISTIAN GRACE SCHOOL OF CAVITE (SENIOR HIGH)

AUG 2020 - MAY 2022
